Blocking Android service while waiting for an input I have created a service that has to be blocked (not active) while the user is trying to input something on an EditText. The problem I have is that the user is using fast input but the service is blocked for 5 seconds: 5 seconds during which the service can't do anything. What am I doing wrong? public class MyService extends Service implements OnClickListener { private EditText et; @Override public void onCreate() { super.onCreate(); setUp(); initializeAlarm(); } private void initializeAlarm() { int min = 1000; Intent intent = new Intent(this, AlarmReceiver.class); PendingIntent pintent = PendingIntent.getBroadcast(this, 0, intent, 0); AlarmManager am = (AlarmManager) getSystemService(Context.ALARM_SERVICE); am.setRepeating(AlarmManager.RTC_WAKEUP, SystemClock.elapsedRealtime() + min, min,
